PRODUCT-CATALOGUE "PLASTIC"
HEUCHEMER VERPACKUNG

WE LOVE PACKAGING.

Responsibility & sustainability are essential for all packaging solutions. By using environmentally friendly materials and focusing on waste reduction and energy efficiency, we want to make our contribution to a sustainable future.

As a customer, you can rely on a modern and solution-oriented company with a rich history full of innovative ideas and successes. By combining traditional packaging techniques with modern, digital technologies with a high degree of automation, we offer you solutions that are contemporary and meet your specific needs.

At our three locations we produce packaging made of corrugated board, plastic and wood. This results in synergies and technical opportunities, which we will be happy to introduce to you personally in detail. We provide you with packaging solutions that are state of the art and implemented with a passion for packaging.

PASSION. PACKAGING.

CONTENTS

01

Corrugated board

Corrugated board packaging is both a protective and advertising medium.

Overview of corrugated board

- 01 / 01 - Food & confectionery
- 01 / 02 - Beverages
- 01 / 03 - Industry & technology
- 01 / 04 - Cosmetics & body care
- 01 / 05 - Presents & shipping
- 01 / 06 - Point of Sale

02

Digital production

Ideal for small batches - digitally printed and laser-punched corrugated packaging

Overview of Digital Production

- 02 / 01 - Small series & test markets

03

Plastic

Plastic packaging solutions are as versatile as the material itself.

Overview of plastics

- | | |
|-------------------------------------------------------|---------|
| • 03 / 01 - Automotive & Electronics | 4 - 5 |
| • 03 / 02 - Cosmetics | 6 - 9 |
| • 03 / 03 - Food & Beverages | 10 - 11 |
| • 03 / 04 - Pharmacy, Medical & Diagnostic Technology | 12 - 15 |
| | 16 - 17 |

04

Wood / Combination

Custom-made packaging systems made of wood.

Overview Wood / Combination

- 04 / 01 - Packaging systems

OVERVIEW OF PLASTICS:

- Customised packaging for your valuable goods
- Sustainable thermoformed packaging - also biodegradable
- Low-particle special packaging
- Self-supporting workpiece carriers
- SLC inlays
- Highly transparent folding blisters

PACKAGING MADE FROM **PLASTIC**

03

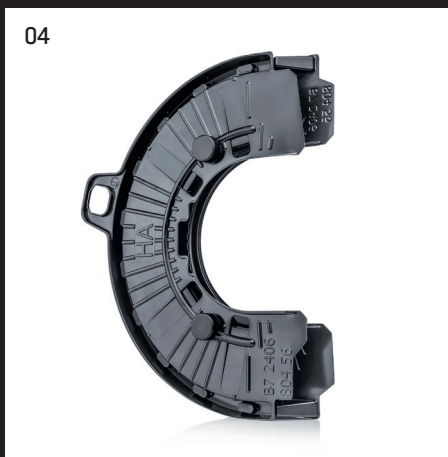

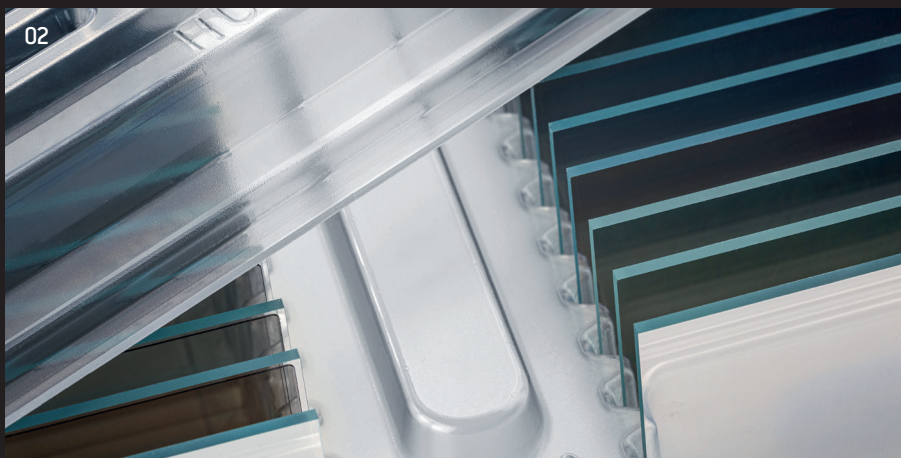

Plastic packaging solutions produced using the thermoforming process are as versatile as the material itself. Our competent development and production team works together with our sales specialists to create your custom plastic packaging.

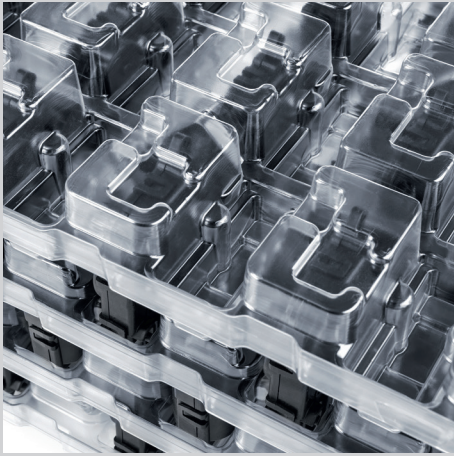

With our three-dimensional CAD technology, our own toolmaking department and our ultra-modern, high-performance machine park designed for medium and large series production, as well as our class 8 hygiene room, we can realise product requirements tailored to your industry.

In terms of sustainability, we use plastic films made from up to 100% recycled material. Our manufactured plastic products are up to 100% recyclable on request.

PACKAGING FOR THE AUTOMOTIVE SECTOR & ELECTRONICS

- 01. Transport tray with rotary stacking
- 02. Transport tray with lid
- 03. Transport tray with lid
- 04. Paint cover
- 05. Workpiece carrier with TPU layer
- 06. Internal transport tray

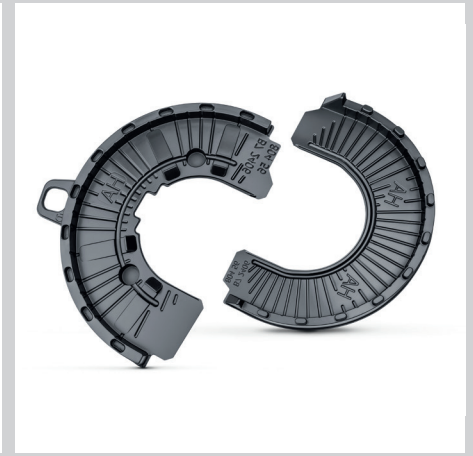

Transport tray with rotary stacking

- Low stacking height on delivery
- For fully automated processes
- Up to 100% recycled material
- 100% recyclable

Transport tray with lid

- Maximum protection for your product
- Low-abrasion tray surfaces
- Antistatic materials
- Optimum dust protection

Two-part paint cover

- Made from ABS
- Very heat resistant
- Cover for brake discs
- Pluggable with clamping

ESD tray with colour stripes

- Colour marking for differentiation and orientation
- Can be positioned individually

Internal transport tray

- Low-abrasion tray surfaces
- Available as disposable or reusable tray
- 100% recyclable
- Made from 100% recycled material

Paint cover

- Heat resistant wheel cover
- With deeply extended domes made of ABS

Workpiece carrier

- ESD-capable material
- Wear-resistant
- Optimum flatness

Workpiece carrier with TPU layer

- No abrasion
- No slipping due to rubber coating
- TPU layer can be applied to various material thicknesses

Combi-tray

- Variable inserts
- Made of PET, PS or ABS with up to 100% recycled content
- Anti-twist protection for product and inserts

Transport tray

- For internal processes
- Maximum protection for your product
- Low abrasion surfaces
- Up to 100% recycled content

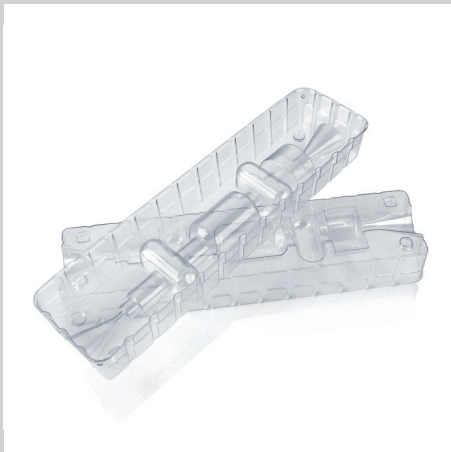

Folding blister

- Reclosable
- Eurohole for the PoS
- Various shapes and sizes

Blue and yellow lamp tray

- Optimal protection and stackability
- Optimum delivery volume
- Maximum tray occupancy possible

Two-piece lamp blister

- Optimum product protection
- Made from 100% recycled material
- 100% recyclable

Workpiece holder for sockets

- For internal processes
- Maximum protection for your product
- Low abrasion surfaces
- Up to 100% recycled content

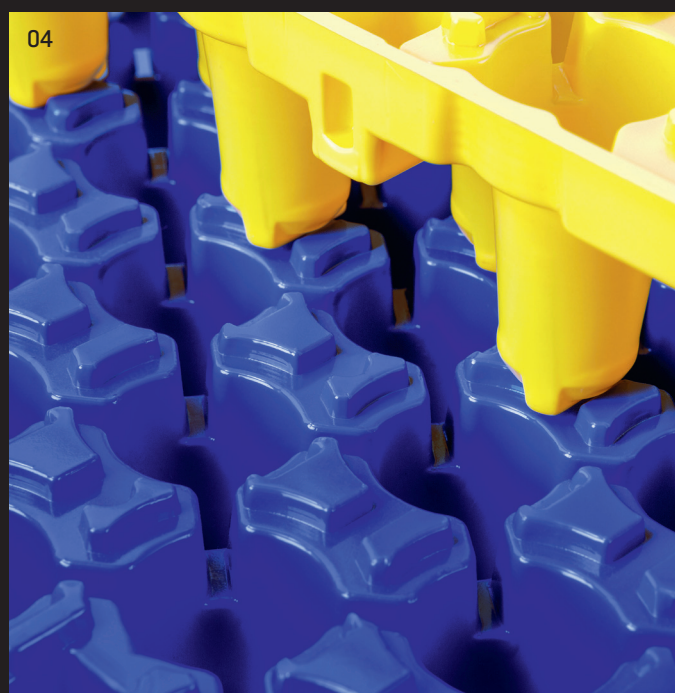

Combinable transport trays

- Stackable
- 100% recyclable

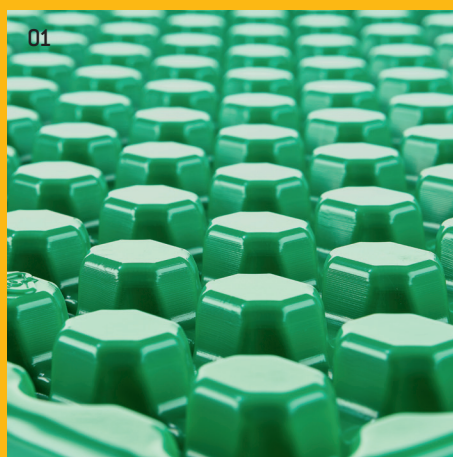

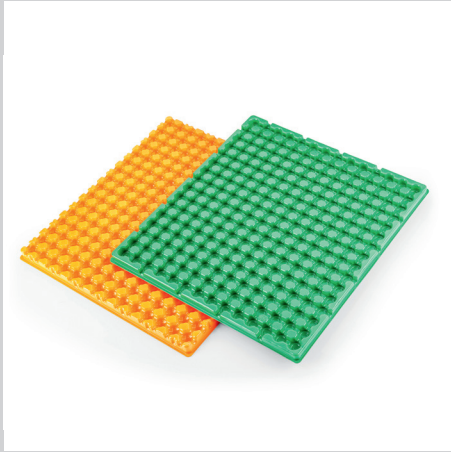

01. Socket transport tray 02. Detail view of socket transport tray
03. Lightbulb tray 04. Blue and yellow lamp tray

PACKAGING FOR COSMETIC PRODUCTS

01. Lid tray 02. PoS-Tray 03. Tube tray 04. Deodorant tray
05. Crucible tray 06. Transport tray

Lid tray

- In-house reusable tray
- Made from PP
- Suitable for high-temperature washing processes

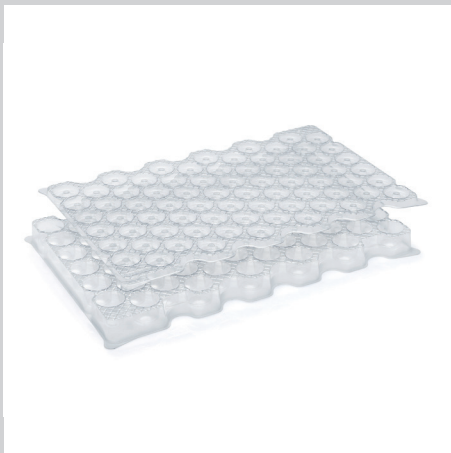

PoS-Tray

- PoS-suitable
- Fully automatic processing
- Optimal product presentation
- 100% recyclable

Tube tray

- PoS-suitable
- 100% recyclable

Crucible tray + matching lid

- Tray for high quality containers
- Matching lid
- 100% recyclable
- Optimum product protection

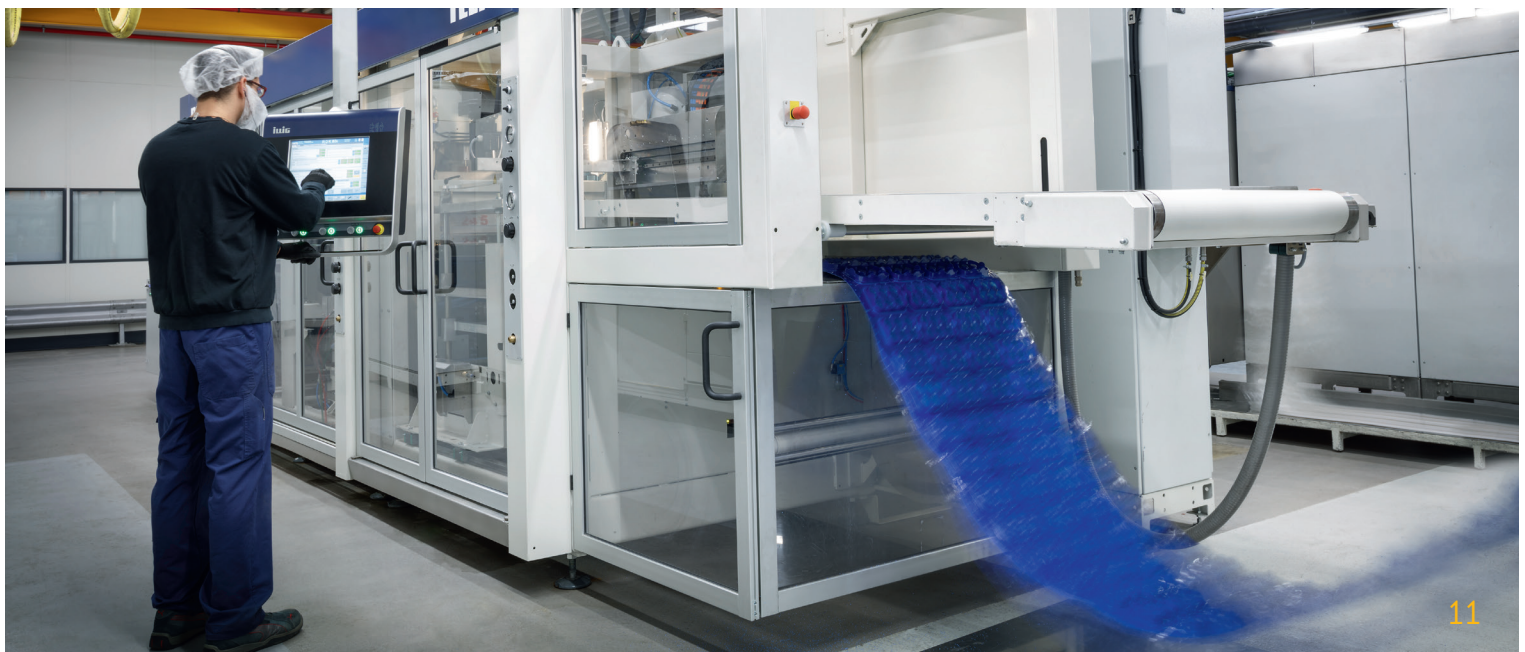

Deodorant tray

- In-house tray
- Optimises internal logistics processes
- Robot compatible
- Reusable

Transport tray

- 100% recyclable
- For various containers
- Available as disposable and reusable tray

PACKAGING FOR THE FOOD & BEVERAGE SECTOR

01. Baked goods insert 02. Praline tray 03. Point of Sale - Tray
04. Bowl + lid 05. Tray with lid 06. Folding blister

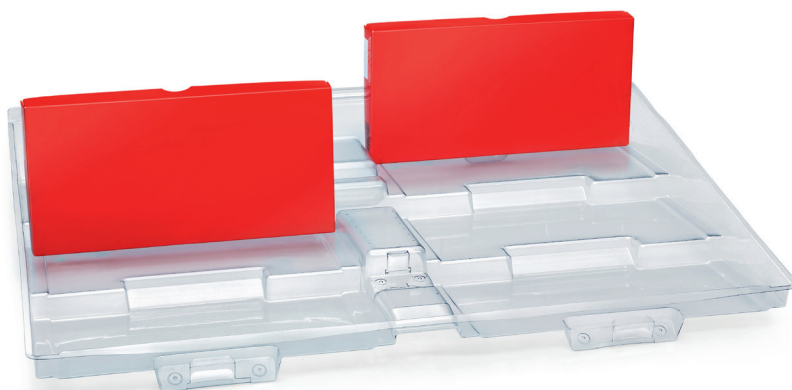

01

02

03

04

05

06

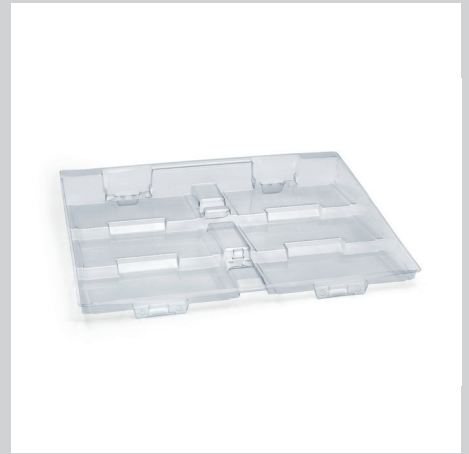

Baked goods insert

- Variable materials + thicknesses
- e.g. PET, PP, brown, transparent
- New or recycled material
- 100% recyclable

Praline tray, golden metallised

- PET golden metallised
- High quality optics
- Small stacking distance with very good unstackability (A / B or A / B / C stacking)

Point of Sale tray

- Optimal presentation of your product at the PoS
- Very stable and stackable
- 100% recyclable
- Made from recycled material

Sorting insert, golden coloured

- PET golden coloured
- Made from 80% recycled material
- 100% recyclable

Bowl + lid

- Bowls in various shapes and sizes
- Reclosable lid
- Sealable with matching top films

Folding blister

- Custom size and shape possible
- Reclosable
- Maximum protection for your product
- 100% recyclable

Bottle tray

- PoS tray
- Suitable for PET bottles
- Stackable, 100% recyclable
- Highest protection during transport and handling in retail

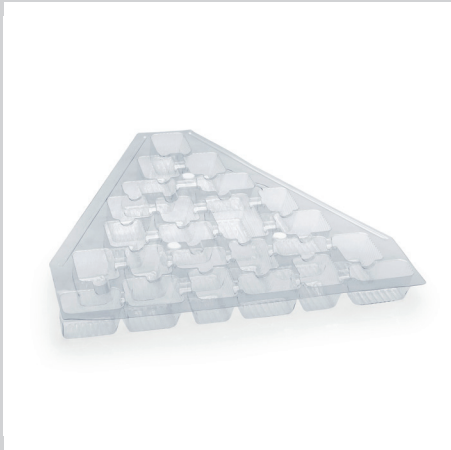

Bottle tray

- Can be cut to fit all bottle types

Advent calendar sorting insert

- Variable shapes and sizes
- 100% recyclable

Advent calendar sorting insert

- 100% recyclable

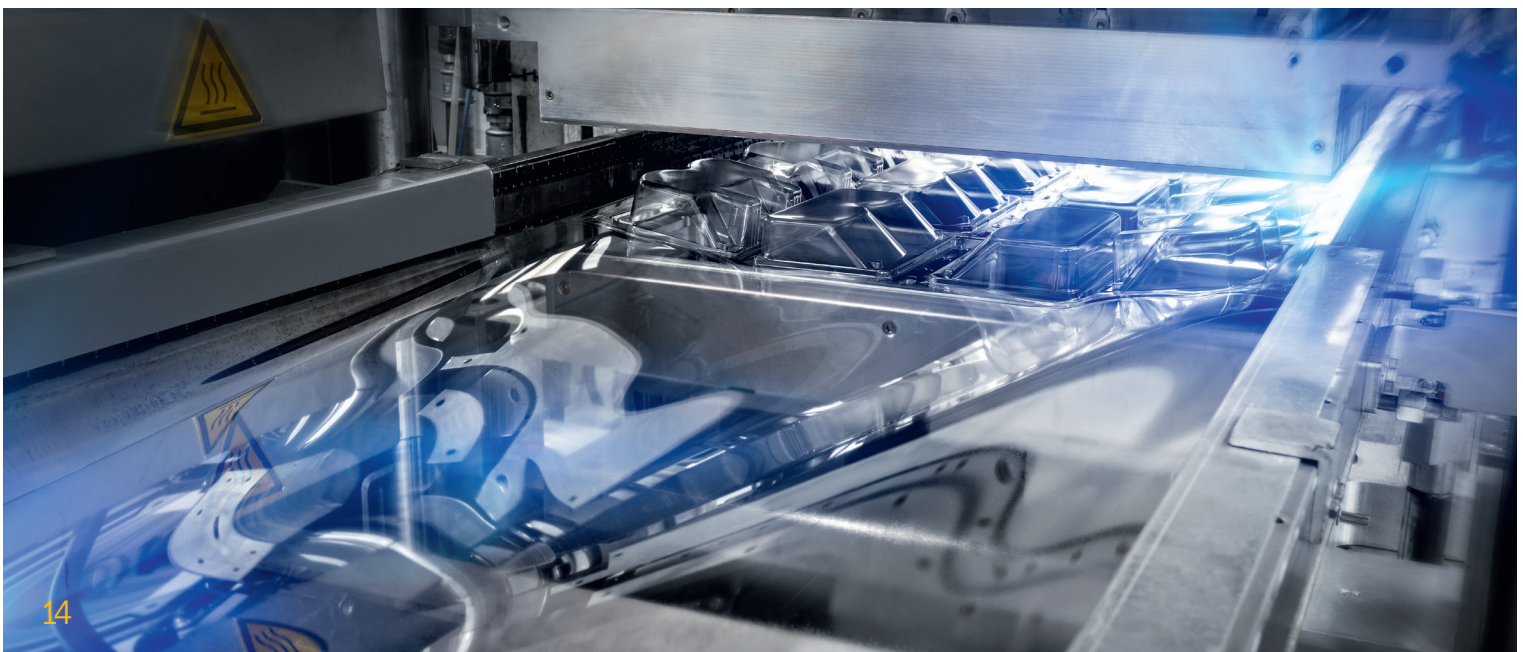

Hollow figure tray

- Optimal presentation at the PoS
- Highest protection during transport and handling in retail
- 100% recyclable

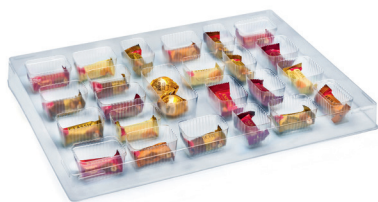

Bottle tray

- 100% recyclable
- Stackable
- PET black

01. Inlay for Advent calendar 02. Bottle tray
03. Sorting insert for Advent calendar 04. Hollow figure tray
05. Stackable bottle tray

01

PACKAGING FOR PHARMACY, MEDICAL & DIAGNOSTIC TECHNOLOGY

01. Pen tray 02. Syringe tray 03. Tubule tray 04. Inhaler tray
05. Combinable transport trays with lid 06. Pipette tray

01

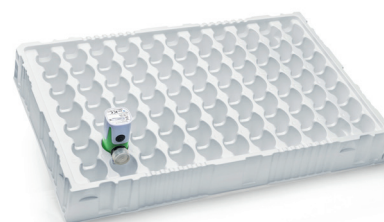

02

03

04

05

06

Pen tray

- Stackable, maximum protection
- Optimal fit and clamping
- Low-abrasion tray surfaces
- FDA / clean room classified according to ISO 8

Syringe tray

- Made of PET or PS as medical type
- PET in food standard with up to
- 80% recycled content
- 100% recyclable

Tubule tray

- Deep cavities with numbering
- Optimum fit
- Suitable for various washing processes

Test tube tray

- Up to 100% recyclable
- Low-abrasion tray surfaces

Inhaler tray

- Can be implemented as a disposable or reusable solution
- Up to 100% recyclable

Combinable transport trays with lid

- Optimum protection for your product
- Variably combinable
- Trays with smallest cavities possible
