WE LOVE PACKAGING.

Responsibility & sustainability are essential for all packaging solutions. By using environmentally friendly materials and focusing on waste reduction and energy efficiency, we want to make our contribution to a sustainable future.

As a customer, you can rely on a modern and solution-oriented company with a rich history full of innovative ideas and successes. By combining traditional packaging techniques with modern, digital technologies with a high degree of automation, we offer you solutions that are contemporary and meet your specific needs.

At our three locations we produce packaging made of corrugated board, plastic and wood. This results in synergies and technical opportunities, which we will be happy to introduce to you personally in detail. We provide you with packaging solutions that are state of the art and implemented with a passion for packaging.

PASSION. PACKAGING.

- Digital print
- Laser punching technology
- Die-cut packages
- Wrap-around blanks
- Adhesive packs from 1 to 6-point adhesion
- Folding bottom boxes (also with compartment set)
- Displays
- Folding boxes

PACKAGING MADE FROM

CORRUGATED BOARD

01

Corrugated board packaging is both a protective and advertising medium. We develop, produce and supply a wide variety of corrugated cardboard packaging that optimally protects your products in transit and perfectly showcases them in retail.

Packaging made of corrugated board transports and protects your product, advertises your brand and is made of a renewable, 100% recyclable raw material.

Can you imagine a supermarket without printed corrugated packaging? Neither can we!

THE BUSINESS UNIT

HEUCHEMER DIGITAL

02

The fully digital printing & processing centre for your packaging specialises in digitally printed and laser die-cut corrugated packaging in small batches.

The advantages include an uncomplicated, time-saving workflow and the conservation of resources. The laser punching process means that there are no limits to creativity.

This means that all packaging for small series and test markets up to around 2,000 units can be produced effectively and without additional costs for clichés and tools.

PACKAGING SOLUTIONS FOR
SMALL SERIES & TEST MARKETS

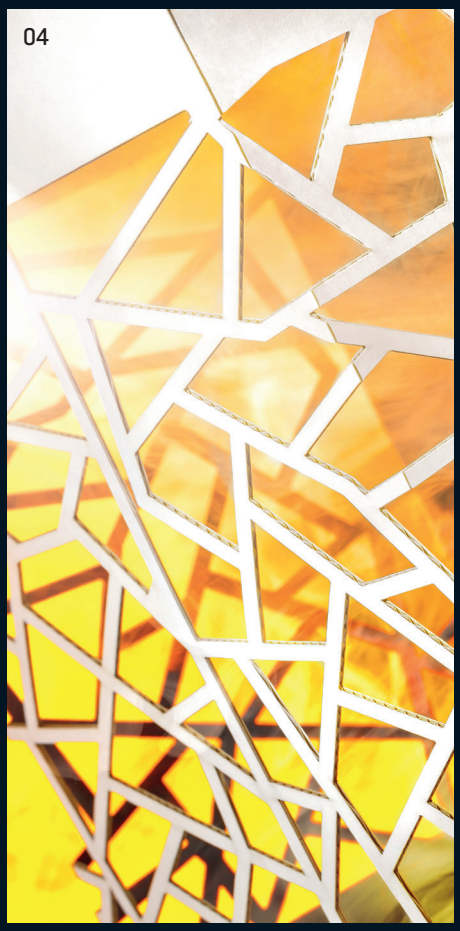
01. Laser-punched packaging for honey jars made from corrugated cardboard
02. Set packaging for bottles and glasses **03.** The Lamaxso sample box
04. Example of delicate laser punching

01

02

03

04



Digital direct printing on corrugated board & further processing with laser punch:

Personalised printing, creasing, cutting and milling

- Personalised or changing print images / die-cuts / decorations possible
- No upfront tool costs, regardless of the number of pieces
- Water-based inks (print images in HD quality)
- No substances hazardous to health, sustainable packaging products in food retailing
- All materials with brown or white outer cover possible (matt or glossy)

Available standards:
E - corrugated
B - corrugated
FE - corrugated
